SOLUTIONS ARCHITECT / SENIOR DEVELOPER

« OBJECTIVE »

To obtain a position that will allow me to utilize and grow my existing skill set and expand upon my leadership capabilities

« PROFILE »

- Skilled Pre-Sales Engineer: Strong in presentation and training settings with a knack for making the complicated simple and interesting.
- Highly Effective Communicator: Able to communicate technical information to management and end-users at any level. Thrives on challenge, and excels in a fast-paced environment.
- 17+ Years of Software Development Experience: "Big picture" Systems Architect and Application Developer with demonstrated leadership capability in an enterprise IT environment.
- Proficient Web Programmer: Proven expertise with object-oriented languages, web scripting, database programming, and more. Extensive experience in Windows, Unix (AIX), Linux, or Mac OS operating environments.
- Effective Project Manager: Proven ability to meet deadlines. Extensive experience defining requirements and managing small- to medium-scale projects (analysis, budgeting, planning, estimating, tracking, and scheduling).
- Strong Work Ethic: Self-motivated and dedicated. Able to work independently or in a collaborative team environment. Rapidly assimilates new technologies to implement customized, state-of-the-art solutions.
